Alex Saigh, Patria's CEO, said: *"I'm very pleased with the performance we delivered in the 4th quarter and the full year 2023. We generated Fee Related Earnings of \$148 million for the year, up 14% from 2022, and added \$47 million of Performance Related Earnings. We continue to grow and diversify our platform, and based on our progress in 2023, we are even more confident in our path to deliver the multi-year targets shared at our 2022 Investor Day. I'm very proud of what we've accomplished in the three years since our IPO and excited for the opportunities ahead of us."*

## 2023 Message from Patria's CEO – Alex Saigh

"2023 marked Patria's third year as a public company, and I'm very pleased with the performance we delivered in the 4th quarter and the full year. We generated \$47 million of Fee Related Earnings in 4Q23, bringing our full year 2023 FRE to \$148 million with an FRE margin of 60%. This is up 14% from 2022 driven mostly by organic growth. Additionally, Performance Related Earnings were \$27 million for 4Q23, and \$47 million for the full year. With strong performance in both earnings streams, we delivered more than \$70 million of Distributable Earnings, or 47 cents per share, for 4Q23, bringing Distributable Earnings for the full year 2023 to \$188 million, or \$1.26 per share. That translates to EPS growth of 26% year-over-year for our shareholders, and the resulting \$1.07 in dividends equates to a yield of 7.7%, based on our share price at the beginning of 2023.

This was also our first year on the path to deliver the multi-year targets shared at our 2022 Investor Day, which look out through 2025. We aimed to grow Fee Related Earnings from \$130 million in 2022, to more than \$200 million in 2025. Given our performance in 2023, our organic growth initiatives, and the additional earnings power embedded in our pending M&A transactions, I'm confident in our path to meet this target. While it's challenging to guide you on PRE in a given quarter or year, we said we could generate \$180 million of performance fee realizations between our Investor Day and the end of 2025. Including the amount realized in the 4th quarter of 2022, we've now delivered more than \$66 million of PRE since the Investor Day, putting us right on pace to deliver this target as well.

In terms of growing the platform, we also set targets for Total AUM to reach \$50 billion and Fee Earning AUM to reach \$35 billion by the end of 2025. In order to achieve those targets, we estimated a need for at least \$20 billion of capital formation, from a combination of organic fundraising and M&A, between 2022 and 2025. Considering our strong organic inflows, our closed or pending M&A transactions, and our goal to raise around \$5 billion of gross inflows again this year, we believe that by the end of 2024 we can achieve the \$20 billion of capital formation and \$35 billion of Fee Earning AUM a year earlier than expected. We are growing with quality by adding stable and sticky AUM, with our permanent capital AUM expected to grow to near 20% of Total Fee Earning AUM, with over 70% of Fee Earning AUM denominated in hard currency.

Our fundraising in 2023 really showcases the power of diversity and reinforces why it's such an important aspect of Patria's growth. Our latest flagship Infrastructure vintage raised more than \$1 billion in 2023, with more than \$400 million in the 4th quarter. Our Credit, Real Estate, Public Equities, and Advisory verticals each contributed \$700-800 million of gross inflows including \$200 million in 4Q23 for our new Infrastructure Private Credit fund. Overall, we secured new organic inflows of \$4.8 billion during the year including \$175 million of commitments approved in December and closed in January.

We saw particularly strong investment performance in the 4th quarter with more than \$1.1 billion in positive valuation impact, taking full year 2023 appreciation to more than \$1.9 billion. Performance in our drawdown funds drove our Net Accrued Performance Fees to \$541 million, up 13% from one year ago, even after the realization of \$47 million of PRE in 2023. The strategies in our Public Equities vertical also generated strong gains with pan-LatAm strategies yielding nearly 29% in USD and Chilean equities strategies yielding more than 18% in local currency for the full year. The performance of our Credit strategies was also notable with our LatAm High Yield fund yielding 14% in USD during 2023, while the Local Currency fund yielded nearly 30% in USD for the year.

We've continued to stress that returning capital to our investors has also been a key focus in 2023, and our divestment activity in the drawdown funds continues to gain momentum as announced significant full or partial exit events in Infrastructure Fund III (ODATA, Entrevias) and Private Equity Fund V (Delly's, Smartfit). In total, we realized more than \$2.5 billion across the platform for our limited partners during 2023.

Again, I'm very pleased with Patria's performance in 2023. I'm very proud of what we've accomplished in the three years since our IPO and excited for the opportunities ahead of us."

## Definitions

---

- **Distributable Earnings (DE)** is used to assess our performance and capabilities to distribute dividends to shareholders. DE is calculated as FRE deducted by current income tax expense, plus net realized performance fees, net financial income/(expenses). DE is derived from and reconciled to, but not equivalent to, its most directly comparable IFRS measure of net income.
- **Drawdown Funds** are illiquid, closed-end funds in which upfront capital commitments are allocated to investments, and funded through capital calls from limited partners over the contractual life of the fund, which typically ranges from 10-14 years.
- **Fee Earning Assets Under Management (FEAUM)** is measured as the total capital managed by us on which we derive management fees as of the reporting date. Management fees are based on "net asset value," "adjusted cost of all unrealized portfolio investments," "capital commitments," or "invested capital" plus "reserved capital" (if applicable), each as defined in the applicable management agreement.
- **Fee Related Earnings (FRE)** is a performance measure used to assess our ability to generate profits from revenues that are measured and received on a recurring basis. FRE is calculated as management, incentive and other fee revenues, net of taxes, less personnel and administrative expenses, amortization of placement agents and rebate fees, adjusted to exclude the impacts of equity base compensation and non-recurring expenses.
- **Gross MOIC** represents the Gross Multiple on Invested Capital and is calculated as the total fair value of investments (realized and unrealized), divided by total invested capital.
- **Incentive Fees** are realized performance-based fees which are measured and received on a recurring basis, and not dependent on realization events from the underlying investments.
- **Net Accrued Performance Fees** represent an accrued balance of performance fees, which if each eligible investment vehicle were liquidated on the reporting date at current valuations, would be recognized as Performance Related Earnings.
- **Net IRR** represents the cash-weighted internal rate of return on limited partner invested capital, based on contributions, distributions and unrealized fair value as of the reporting date, after the impact of all management fees, expenses and performance fees, including current accruals. Net IRR is calculated based on the chronological dates of limited partner cash flows, which may differ from the timing of actual investment cash flows for the fund.
- **Pending FEAUM** refers to committed capital that is eligible to earn management fees but is not yet activated per the basis defined in the applicable management agreement.
- **Performance Related Earnings (PRE)** refer to realized performance fees (net of related taxes) less realized performance fee compensation allocated to our investment professionals. We earn performance fees from certain of our drawdown funds, representing a specified allocation of profits generated on eligible third-party capital, and on which the general partner receives a special residual allocation of income from limited partners in the event that specified return hurdles are achieved by the fund.
- **Total Assets Under Management (Total AUM)** refers to the total capital funds managed or advised by us plus the investments directly made by others in the invested companies when offered by us as co-investments. In general, Total AUM equals the sum of (i) the fair value of the investments of each one of the funds and co-investments; and (ii) uncalled capital, which is the difference between committed and called capital.
