Patria Reports Second Quarter 2024 Earnings Results

Grand Cayman, Cayman Islands, August 1, 2024 – Patria (Nasdaq:PAX) reported today its unaudited results for the second quarter ended June 30, 2024. The full detailed presentation of Patria's second quarter 2024 results can be accessed on the Shareholders section of Patria's website at <https://ir.patria.com/>.

Alex Saigh, Patria's CEO, said: *"The 2nd quarter of 2024 was a very busy quarter as we continued to make solid progress towards our near and long-term goals. Fee Related Earnings reached \$40 million dollars, representing a 17% increase from 2Q23. We delivered close to \$34 million dollars of Distributable Earnings, or 22 cents per share. We continued to grow and diversify our platform as we organically raised \$2.2 billion dollars over the first half of 2024 and approximately \$5 billion over the last twelve months, in addition to multiple inorganic initiatives. As previously announced, during the quarter we closed on the acquisition of abrdn's private equity solutions business, and since the end of the quarter we completed the transition of the Credit Suisse real estate business in Brazil, closed on the acquisition of Nexus Capital which further strengthened our real estate platform in Colombia, and just today concluded our acquisition of the 50% of VBI we did not already own. Of note, we are excited to announce an important update to our capital management strategy and our intention to repurchase up to 1.8 million shares over the next twelve months as we look to maximize returns to shareholders. Overall, I am even more confident that we will reach our 2024 target for Fee Related Earnings of at least \$170 million dollars, on the way to generating \$200 to \$225 million of FRE in 2025."*

Financial Highlights (reported in \$ USD)

IFRS results included \$0.8 million of net income attributable to Patria in Q2 2024. Patria generated Fee Related Earnings of \$39.5 million in Q2 2024, up 17% from \$33.8 million in Q2 2023, with an FRE margin of 56%. Distributable Earnings were \$33.8 million for Q2 2024, or \$0.22 per share.

Message from Patria's CEO – Alex Saigh

The second quarter of 2024 was a very busy quarter for Patria as we continued to make solid progress towards our near and long-term goals. Fee Related Earnings reached \$40 million, representing year-over-year and sequential growth of 17% and 13%, respectively. We also delivered close to \$34 million of Distributable Earnings, or \$0.22 per share, and are excited to announce an update to our capital management strategy and our intention to repurchase up to 1.8 million shares over the next twelve months as we look to optimize our capital and maximize returns to our shareholders.

We organically raised \$2.2 billion over the first half of 2022 and approximately \$5 billion over the last twelve months, and we are confident we are on track towards meeting our \$5 billion fundraising target for the year. At the portfolio level, we generated solid investment performance in our private investments which helped mitigate some of the impact from adverse FX movements and declines in several publicly listed shares held in our Private Equity portfolios. Generating strong investment returns for our fund investors remains our primary objective.

Total AUM of over \$40 billion and Fee Earning AUM in excess of \$31 billion have grown more than 43% and 44% from one year ago, respectively, benefiting from our fund-raising momentum and the closing of several acquisitions, including the acquisition of the abrdn private equity solutions business with \$8bn of Fee Earnings AUM. This business forms the base of our new Global Private Markets Solutions vertical, or GPMS, and we are already seeing strong momentum in this newly acquired business as we closed on a \$430 million SMA in the quarter and expect a first close on its next commingled fund later this year.

Also, on the M&A front, in July we finished the transition of the Credit Suisse real estate business in Brazil with over \$2 billion in Fee Earning AUM and we recently closed on the acquisition Nexus Capital with over \$700 million of Fee Earning AUM, which further strengthened our Real Estate platform in Colombia. Finally, today we announced that we concluded our acquisition of the remaining 50% of VBI we did not own, whose Brazilian listed REIT business has more than doubled since we made our initial investment in mid-2022. Pro-forma for the above transactions, our 2Q24 Fee Earning AUM are over \$33 billion, with permanent capital growing from insignificant levels at the time of our IPO to over 20%.

We are better positioned than we have ever been to grow our business as we execute on our strategy to be the gateway for alternatives investments in Latin America. The number of investment platforms, strategies, and investment vehicles we offer has grown substantially since our IPO, and our investment verticals now include Private Equity, Infrastructure, Credit, Real Estate, Public Equities and Global Private Markets Solutions. With permanent capital, drawdown funds and SMAs representing over 65% of our Fee Earning AUM, our management fee revenues and Fee Related Earnings are inherently sticky.

To conclude, we remain very comfortable with our 2024 fundraising target of \$5 billion, and our FRE targets for 2024 and 2025 of over \$170 million and \$200-225 million, respectively. Excluding any potential benefit from share repurchases, we are slightly increasing our target for FRE per share for 2024 to \$1.10+ (from \$1.09) and for 2025 to \$1.34 (from \$1.33) at the midpoint of the range, as we expect to issue fewer shares to fund M&A and contingent payments. The midpoint of our FRE/share target represents a 21% CAGR since 2021, the year we had our IPO. Importantly, we expect to see accelerating FRE and DE growth in the second half of 2024 and into 2025 as the full weight of our FEAUM growth flows through, and we move past short term headwinds resulting from M&A related financing costs.

As we embark on our next chapter of growth, we look forward to sharing more details with you at our next PAX Investor Day on December 9th.

Definitions

- **Distributable Earnings (DE)** is used to assess our performance and capabilities to distribute dividends to shareholders. DE is calculated as FRE deducted by current income tax expense, plus net realized performance fees, net financial income/(expenses). DE is derived from and reconciled to, but not equivalent to, its most directly comparable IFRS measure of net income.
- **Drawdown Funds** are illiquid, closed-end funds in which upfront capital commitments are allocated to investments, and funded through capital calls from limited partners over the contractual life of the fund, which typically ranges from 10-14 years.
- **Fee Earning Assets Under Management (FEAUM)** is measured as the total capital managed by us on which we derive management fees as of the reporting date. Management fees are based on "net asset value," "adjusted cost of all unrealized portfolio investments," "capital commitments," or "invested capital" plus "reserved capital" (if applicable), each as defined in the applicable management agreement.
- **Fee Related Earnings (FRE)** is a performance measure used to assess our ability to generate profits from revenues that are measured and received on a recurring basis. FRE is calculated as management, incentive and other fee revenues, net of taxes, less personnel and administrative expenses, amortization of placement agents and rebate fees, adjusted to exclude the impacts of equity-based compensation and non-recurring expenses.
- **Gross MOIC** represents the Gross Multiple on Invested Capital and is calculated as the total fair value of investments (realized and unrealized), divided by total invested capital.
- **Incentive Fees** are realized performance-based fees which are measured and received on a recurring basis, and not dependent on realization events from the underlying investments.
- **Net Accrued Performance Fees** represent an accrued balance of performance fees, which if each eligible investment vehicle were liquidated on the reporting date at current valuations, would be recognized as Performance Related Earnings.
- **Net IRR** represents the cash-weighted internal rate of return on limited partner invested capital, based on contributions, distributions and unrealized fair value as of the reporting date, after the impact of all management fees, expenses and performance fees, including current accruals. Net IRR is calculated based on the chronological dates of limited partner cash flows, which may differ from the timing of actual investment cash flows for the fund.
- **Pending FEAUM** refers to committed capital that is eligible to earn management fees but is not yet activated per the basis defined in the applicable management agreement.
- **Performance Related Earnings (PRE)** refer to realized performance fees (net of related taxes) less realized performance fee compensation allocated to our investment professionals. We earn performance fees from certain of our drawdown funds, representing a specified allocation of profits generated on eligible third-party capital, and on which the general partner receives a special residual allocation of income from limited partners in the event that specified return hurdles are achieved by the fund.
- **Total Assets Under Management (Total AUM)** refers to the total capital funds managed or advised by us *plus* the investments directly made by others in the invested companies when offered by us as co-investments. In general, Total AUM equals the sum of (i) the fair value of the investments of each one of the funds and co-investments; and (ii) uncalled capital, which is the difference between committed and called capital.
