Patria Reports Second Quarter 2026 Earnings Results

Grand Cayman, Cayman Islands, July 31, 2026 – Patria Investments Limited (Nasdaq:PAX) reported today its unaudited results for the second quarter ended June 30, 2026. The full detailed presentation of Patria's second quarter 2026 results can be accessed on the Shareholders section of Patria's website at <https://ir.patria.com/>.

"Our second quarter results reflect continued strong fundraising momentum, supported by consistent investment performance across our diversified platform," said Alex Saigh, Chief Executive Officer at Patria. "We raised \$2.3 billion in the quarter, bringing year-to-date fundraising to \$4.5 billion and keeping us on pace to exceed our full-year target."

Fee-Related Earnings for the quarter were \$57.1 million, up 24% year over year and 13% sequentially, supported by Fee-Earning AUM of \$48.9 billion, which increased 32% year over year and 7% sequentially, and included \$11 billion, or 22%, in permanent capital vehicles. We concluded the quarter on track to achieve our full-year 2026 FRE guidance of \$225 to \$245 million, or \$1.42 to \$1.54 per share. Finally, Distributable Earnings per share of \$0.32 rose 31% year over year and 19% sequentially."

Financial Highlights (reported in \$ USD)

IFRS results included \$10.5 million of net income attributable to Patria in Q2 2026. Patria generated Fee Related Earnings of \$57.1 million in Q2 2026, up 24% from \$46.1 million in Q2 2025, with an FRE margin of 54.0%. Distributable Earnings were \$50.7 million for Q2 2026, or \$0.32 per share.

Dividends

Patria declared a quarterly dividend of \$0.1625 per share to record holders of common stock at the close of business on August 10th, 2026. This dividend will be paid on September 14th, 2026.

IFRS Balance sheet and results for the current reporting period are preliminary and unaudited. Due to the closing of certain M&A activity, certain elements of our 2Q26 IFRS balance sheet and results are dependent on the conclusion of financial statement adjustments (assets and liabilities) and/or completed purchase price adjustments for these transactions, which could cause Patria’s audited IFRS balance sheet and net income to differ from the unaudited information reported within this presentation.

We have included in this presentation our Fee Related Earnings (“FRE”) and Distributable Earnings (“DE”), which are non-GAAP financial measures, along with their reconciliations, for the periods indicated. We understand that although FRE and DE are used by investors and securities analysts in the evaluation of companies, these measures have limitations as analytical tools and you should not consider them in isolation or as substitutes for our results of operations as reported under IFRS.

Additionally, our calculations of FRE and DE may be different from the calculation used by other companies, including competitors in the financial services industry, and therefore, our results may not be comparable to those of other companies.

Fee Related Earnings (“FRE”)

Highlights for the quarter

- Year-over-year increase in Management Fees reflects higher FEAUM driven mainly by organic net inflows, positive investment returns, FX, and the closing of the Solis, RBR, and WP Global Partners acquisitions, partially offset by a lower management fee rate due to mix
- 2Q26 management fee revenues included \$1.5 million of SOF V catch-up fees
- Personnel and G&A expenses totaled approximately \$48 million in the quarter, up 16% sequentially and 40% year-over-year mainly driven by acquisitions, FX, ongoing investments in the business, and seasonal increases in compensation expenses
- Year-over-year and sequential increase in FRE of 24% and 13%, respectively, reflects higher net fee revenues partially offset by lower FRE margin

Net Accrued Performance Fees for Drawdown Funds

- Net Accrued Performance Fees of \$238 million or \$1.49 per share on June 30, 2026
- Net Accrued Performance Fees decreased in the quarter mainly driven by revaluation of portfolio companies in PE Fund VI
- Other Net Accrued Performance Fees includes both Growth and Venture strategies

See notes and definitions at end of document. Totals may not add due to rounding.

Definitions

Distributable Earnings (DE)	is used to assess our performance and capabilities to distribute dividends to shareholders. DE is calculated as FRE deducted by current income tax expense, plus net realized performance fees, net financial income/(expenses). DE is derived from and reconciled to, but not equivalent to, its most directly comparable IFRS measure of net income.	Net Accrued Performance Fees	represent an accrued balance of performance fees, which if each eligible investment v were liquidated on the reporting date at current valuations, would be recognized as Performance Related Earnings for Drawdown Funds.
Drawdown Funds	are illiquid, closed-end funds in which upfront capital commitments are allocated to investments, and funded through capital calls from limited partners over the contractual life of the fund, which typically ranges from 10-14 years.	Net IRR	represents the cash-weighted internal rate of return on limited partner invested capit on contributions, distributions and unrealized fair value as of the reporting date, after impact of all management fees, expenses and performance fees, including current acc IRR is calculated based on the chronological dates of limited partner cash flows, which differ from the timing of actual investment cash flows for the fund.
Fee Earning Assets Under Management (FEAUM)	is measured as the total capital managed by us on which we derive management fees as of the reporting date. Management fees are based on "net asset value," "adjusted cost of all unrealized portfolio investments," "capital commitments," or "invested capital" plus "reserved capital" (if applicable), each as defined in the applicable management agreement.	Performance Related Earnings (PRE)	refer to realized performance fees (net of related taxes) less realized performance fee compensation allocated to our investment professionals. We earn performance fees from certain of our drawdown funds, representing a specified allocation of profits generated on eligible third-party capital, and on which general partner receives a special residual allocation of income from limited partners i event that specified return hurdles are achieved by the fund.
Fee Related Earnings (FRE)	is a performance measure used to assess our ability to generate profits from revenues that are measured and received on a recurring basis. FRE is calculated as management, incentive and other fee revenues, net of taxes, less personnel and administrative expenses, amortization of placement agents and rebate fees, adjusted to exclude the impacts of equity-based compensation and non-recurring expenses.	Total Assets Under Management (Total AUM)	refers to the total capital funds managed or advised by us plus the investments directf others in the invested companies when offered by us as co-investments. In general, Tc equals the sum of (i) the fair value of the investments of each one of the funds and co investments; and (ii) uncalled capital, which is the difference between committed and capital.
Gross MOIC	represents the Gross Multiple on Invested Capital and is calculated as the total fair value of investments (realized and unrealized), divided by total invested capital		
Incentive Fees	are realized performance-based fees which are measured and received on a recurring basis, and not dependent on realization events from the underlying investments.
