Patria Reports Third Quarter 2026 Earnings Results

Grand Cayman, Cayman Islands, November 3, 2026 – Patria Investments Limited (Nasdaq:PAX) reported today its unaudited results for the third quarter ended September 30, 2026. The full detailed presentation of Patria's third quarter 2026 results can be accessed on the Shareholders section of Patria's website at https://ir.patria.com/.

"Our third quarter results demonstrate the strength and resilience of Patria's increasingly diversified platform. We raised $2.4 billion in the quarter and $6.9 billion year to date, effectively reaching our full-year fundraising target one quarter ahead of schedule, and we are on track for another record year." said Alex Saigh, Chief Executive Officer at Patria.

"Our differentiated investment performance, with over 85% of our Fee-Earning AuM, excluding SMAs and third-party managed funds, in funds at or above their benchmarks since inception, and our ability to design tailored solutions for the world's leading institutional investors are driving this momentum. With Fee-Related Earnings per share up 16% year to date and $4.8 billion in pending Fee-Earning AuM, we are confident in delivering on our 2026 guidance and in our path toward our 2027 targets."

Financial Highlights (reported in $ USD)

IFRS results included $7.2 million of net income attributable to Patria in Q3 2026. Patria generated Fee Related Earnings of $52.8 million in Q3 2026, up 7% from $49.5 million in Q3 2025, with an FRE margin of 53.7%. Distributable Earnings were $46.9 million for Q3 2026, or $0.30 per share.

Dividends

Patria declared a quarterly dividend of $0.1625 per share to record holders of common stock at the close of business on November 13th, 2026. This dividend will be paid on December 11th, 2026.

Fee Related Earnings ("FRE")

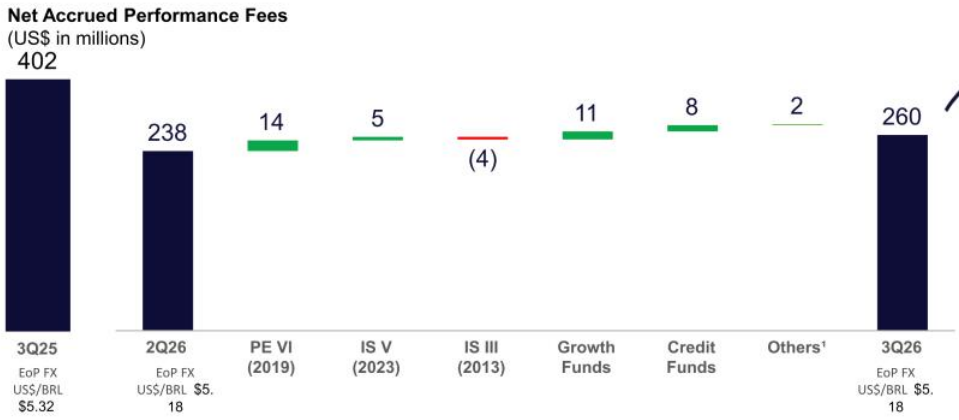

- Year-over-year increase in Management Fees reflects higher FEAUM driven mainly by organic net inflows, positive investment returns, FX, and the closing of the Solis, RBR, and WP Gl acquisitions, partially offset by a lower management fee rate due to mix. Sequentially, Management Fees declined in 3Q26, primarily reflecting realizations in Private Equity Fund V and I Fund III.
- Personnel and G&A expenses totaled approximately $45 million in the quarter, down 7% sequentially and up 31% year over year. The year-over-year increase was primarily driven by ac and ongoing investments in the business, while the sequential decline reflected lower compensation expense associated with lower FRE.
- FRE increased 7% year over year, reflecting higher net fee revenues, partially offset by a lower FRE margin. Sequentially, FRE declined due to lower fee revenues, including lower manageme incentive fees and structuring fees.

Drawdown Funds – Fee Mechanics and Timeline

Management Fee Mechanics

- **Investment Period:** fees are charged on commitments or a combination of invested capital on unrealized investment and binding commitments to invest.
- **Post-investment Period:** fee base shrinks due to (i) funds charging on commitments step down to charging on invested capital, and/or (ii) investments are sold and unfunded binding commitments are funded or cancelled.
- **Extension Period:** fee rate can be maintained or reduced.

Performance Fees Mechanics

European waterfall: carry is recognized at the fund level and paid only once investors ha received all capital and the preferred return in cash, which minimizes clawback risk.

Definitions

Distributable Earnings (DE)	is used to assess our performance and capabilities to distribute dividends to shareholders. DE is calculated as FRE deducted by current income tax expense, plus net realized performance fees, net financial income/(expenses). DE is derived from and reconciled to, but not equivalent to, its most directly comparable IFRS measure of net income.
Drawdown Funds	are illiquid, closed-end funds in which upfront capital commitments are allocated to investments, and funded through capital calls from limited partners over the contractual life of the fund, which typically ranges from 10-14 years.
Fee Earning Assets Under Management (FEAUM)	is measured as the total capital managed by us on which we derive management fees as of the reporting date. Management fees are based on "net asset value," "adjusted cost of all unrealized portfolio investments," "capital commitments," or "invested capital" plus "reserved capital" (if applicable), each as defined in the applicable management agreement.
Fee Related Earnings (FRE)	is a performance measure used to assess our ability to generate profits from revenues that are measured and received on a recurring basis. FRE is calculated as management, incentive and other fee revenues, net of taxes, less personnel and administrative expenses, amortization of placement agents and rebate fees, adjusted to exclude the impacts of equity-based compensation and non-recurring expenses.
Gross MOIC	represents the Gross Multiple on Invested Capital and is calculated as the total fair value of investments (realized and unrealized), divided by total invested capital
Incentive Fees	are realized performance-based fees which are measured and received on a recurring basis, and not dependent on realization events from the underlying investments.
Net Accrued Performance Fees	represent an accrued balance of performance fees, which if each eligible investment v were liquidated on the reporting date at current valuations, would be recognized as Performance Related Earnings for Drawdown Funds.
Net IRR	represents the cash-weighted internal rate of return on limited partner invested capit on contributions, distributions and unrealized fair value as of the reporting date, after impact of all management fees, expenses and performance fees, including current acc IRR is calculated based on the chronological dates of limited partner cash flows, which differ from the timing of actual investment cash flows for the fund.
Performance Related Earnings (PRE)	refer to realized performance fees (net of related taxes) less realized performance fee compensation allocated to our investment professionals. We earn performance fees from certain of our drawdown funds, representing a specified allocation of profits generated on eligible third-party capital, and on which general partner receives a special residual allocation of income from limited partners i event that specified return hurdles are achieved by the fund.
Total Assets Under Management (Total AUM)	refers to the total capital funds managed or advised by us *plus* the investments directl others in the invested companies when offered by us as co-investments. In general, To equals the sum of (i) the fair value of the investments of each one of the funds and co- investments; and (ii) uncalled capital, which is the difference between committed and capital.
Pending FEAUM	represents committed capital available for future deployment that could generate ma fees if deployed.
Performance Fee Eligible AUM	represents the portion of AUM on which the firm is contractually entitled to earn perf fees subject to Patria meeting or exceeding return hurdles as defined by each investm product, excluding funds in wind-down that are not expected to generate performanc
